“GREEN” P

Palletizer - PM 800

- Bags & boxes
- Small footprint
- Servo motors with absolute encoders on all positioning axis
- Less sensors, due to the servomotors & encoders
- Best energy efficiency available
- User friendly & intuitive 18,5" HMI

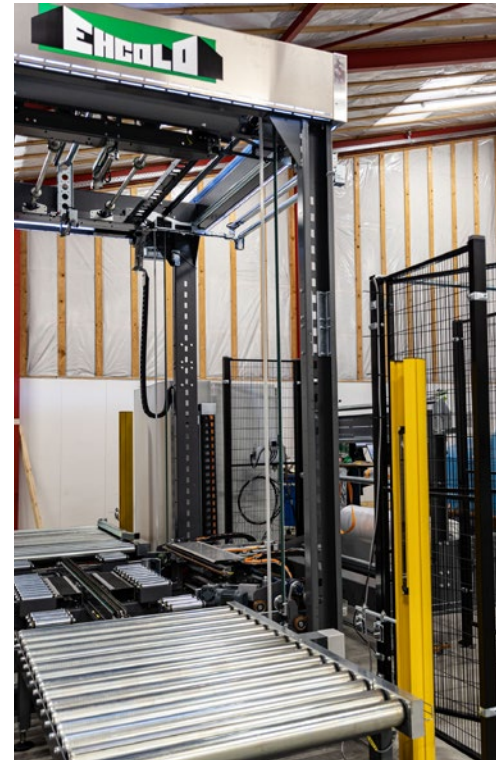

PACKAGING

Think quality

Stretch Hood - HM80

- Most reliable film opening system
- Stretch hood film, without gusset
 - Increased film amount per roll = Less change and Stock
 - Print all around the film "4 sided print"
- Compact
 - Lowest machine on the market
 - Conveyor height down to 500 mm
- Servo drives
 - Main motors are servo, and servo controlled
- Service at floor level
- User friendly & intuitive 18,5" HMI

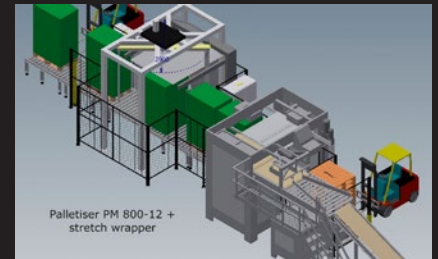

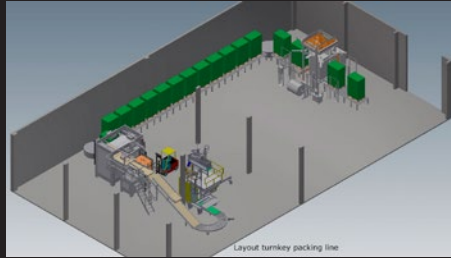

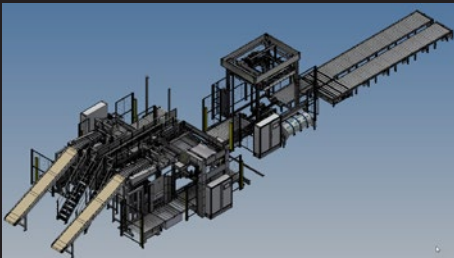

ONE STOP SHOP

Turnkey packing lines

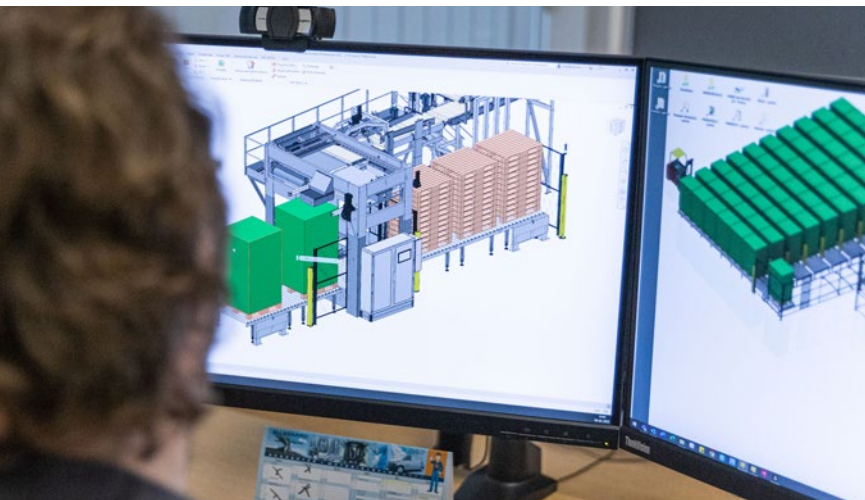

At EHCOLOR, we supply complete packing lines, which means that we eliminate the hassle of communicating with multiple companies.

We can offer a wide selection of turnkey packing line solutions with a full range of bagging machines, different capacities and with one of our many models of palletisers plus the suitable stretch hood or stretch wrapper.

Which machines can be integrated with the turnkey packing lines?

- ☐ Open mouth bags, any type or size
- ☐ Valve bags, any type or size
- ☐ FFS bags, flat film or tubular film
- ☐ Palletizers
- ☐ Stretch Hood machines
- ☐ Stretch wrappers
