

GRUPO VALLE

SMART DISTRIBUTION

SMART DISTRIBUTION

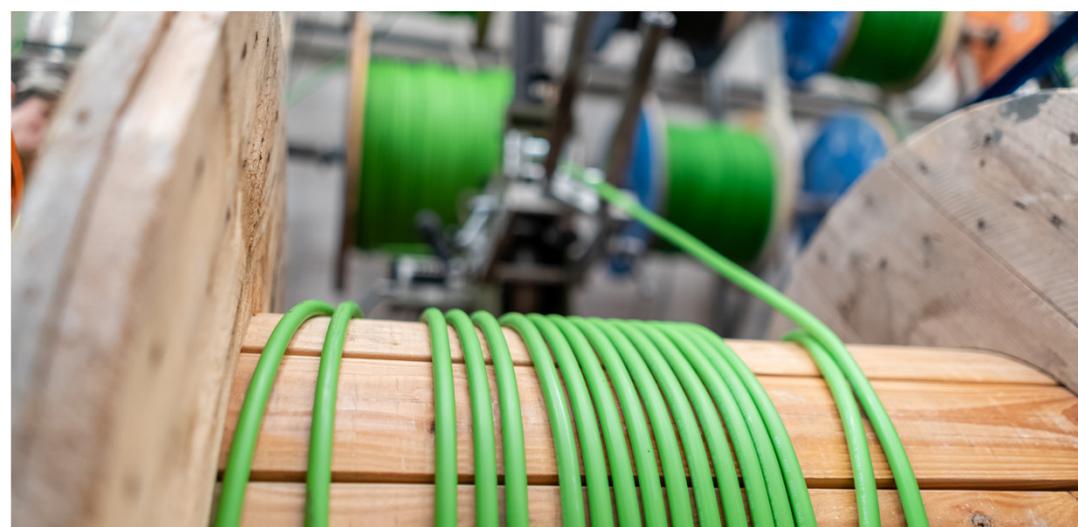

Grupo Valle is a family company with more than 43 years of experience in the electrical material distribution market. Through its specialist divisions in various areas: Lighting, voice and data, electrical material, air conditioning, industrial automation, Medium and High Voltage, Collaborative Robotics offers solutions aimed at Industry 4.0.

The technical team at Grupo Valle is highly qualified and offers the best solutions adapted to the needs of each client:

- › Integral, competitive and innovative solutions
- › Professional, personalised and specialist advice
- › Wide range of top brand products at competitive prices.
- › Experts in electrical solutions
- › Extensive and continuously evolving stock adapted to market demands
- › Quality and speed of service
- › Centralised logistics, point to point sales.
- › Financial flexibility

Excellence is not an act, but a habit

LOOKING TO THE **FUTURE**

Our added value and our specialisation have made us a benchmark in the distribution sector.

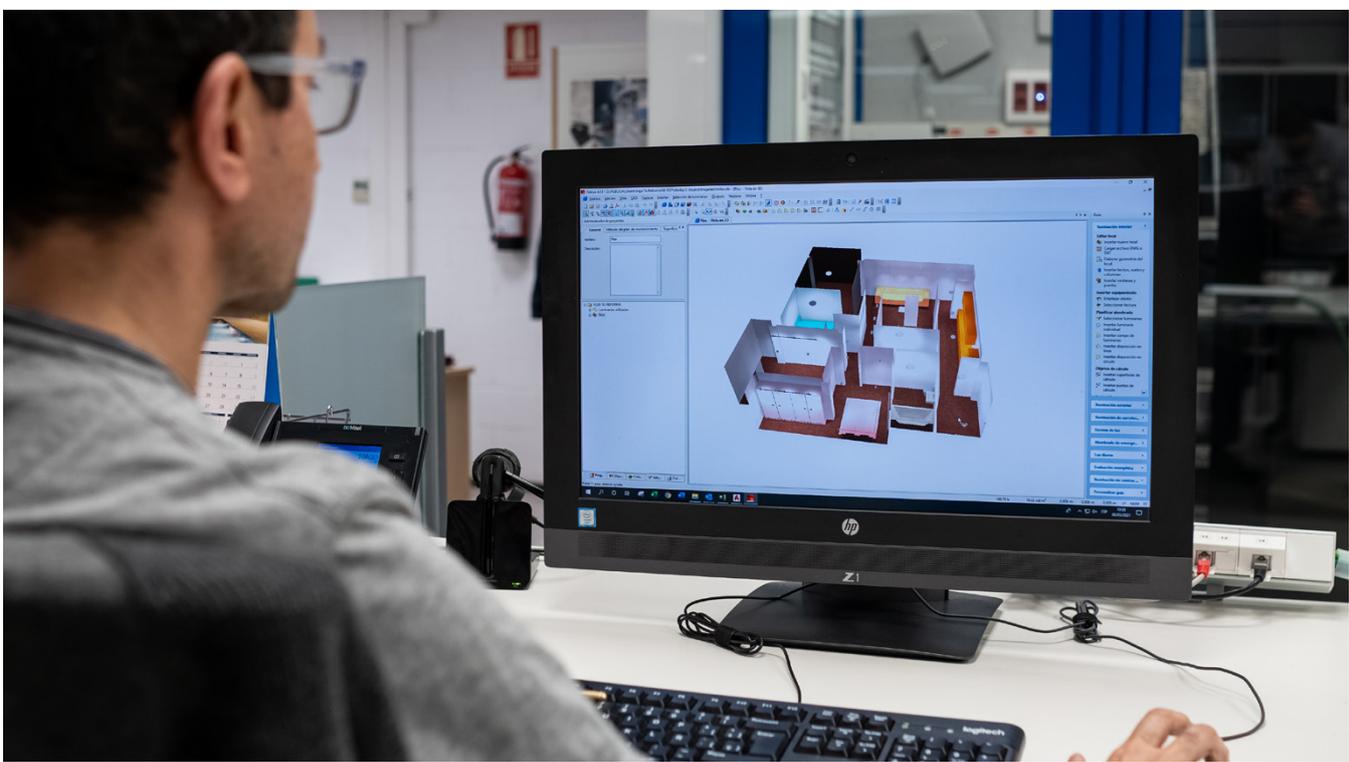

Grupo Valle is a modern, committed and active business structure. We have an experienced and qualified technical team. Great professionals who advise our customers throughout the project from start to finish to obtain a quality project and design using the latest technologies.

WE ACCOMPANY YOU IN YOUR PROJECTS

ArgoROBOTICS is the collaborative robotics specialist division of ArgoLogic, experts in Industry 4.0 products, at the forefront of technological innovations to always guarantee the best solutions and the best industry-oriented service.

ADVICE

We help you to find the best innovative and economical solutions.

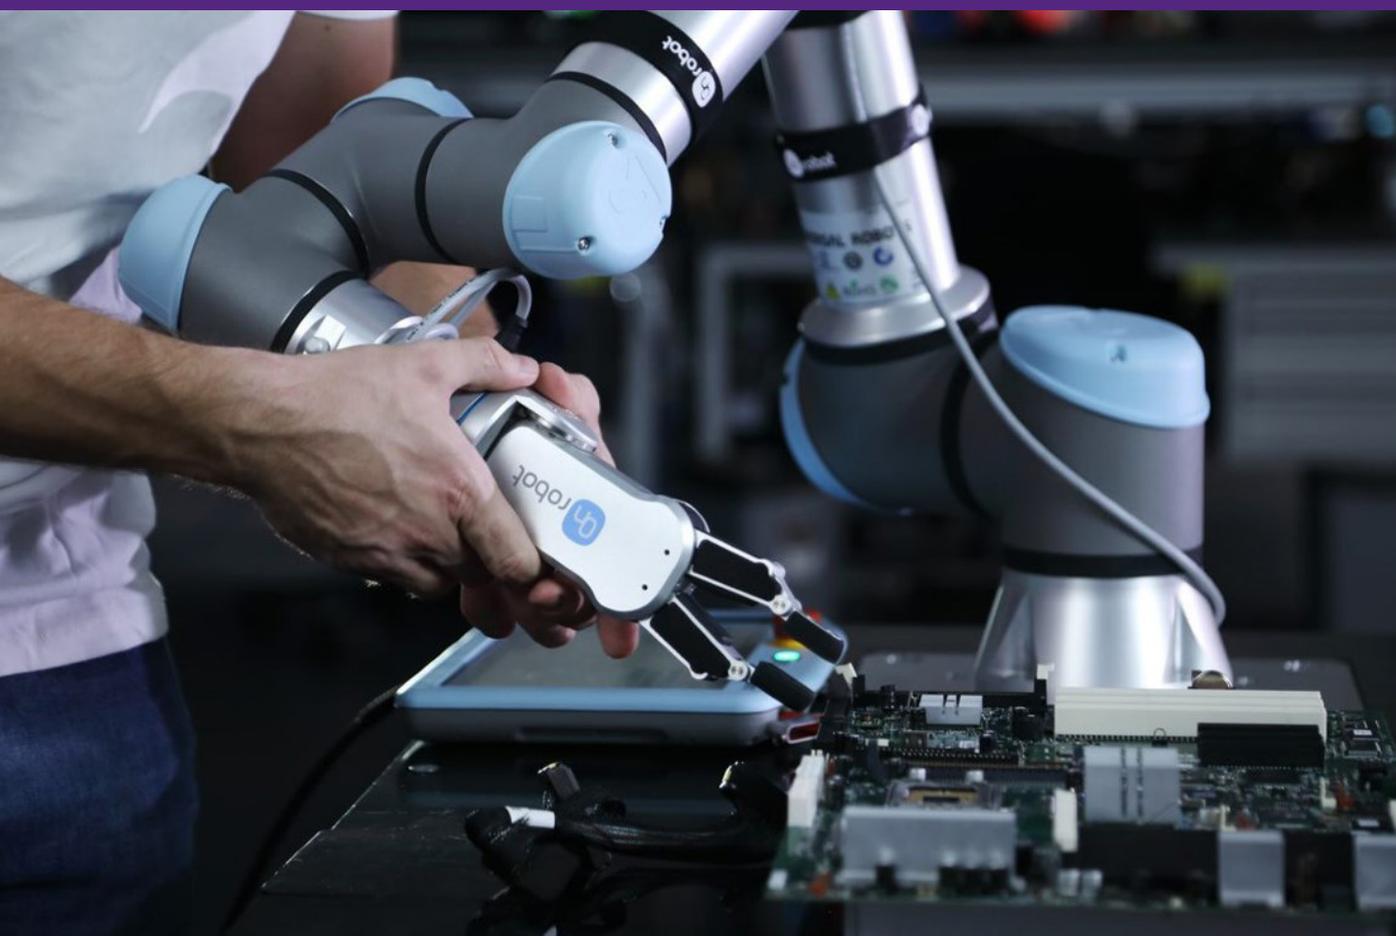

We will assess your needs in order to advise you throughout the whole process.

THE TOOL YOU NEED

Infinite potential at your fingertips with UR+. Plug & Play tools and accessories reduce installation time.

Specialists in collaborative robotics

TAILOR-MADE FINANCING

Financial study, personalised budget and different financing options for equipment.

TAILOR-MADE TRAINING

New technologies bring many advantages to your business, but it is also difficult to keep up to date.

We offer training and seminars.

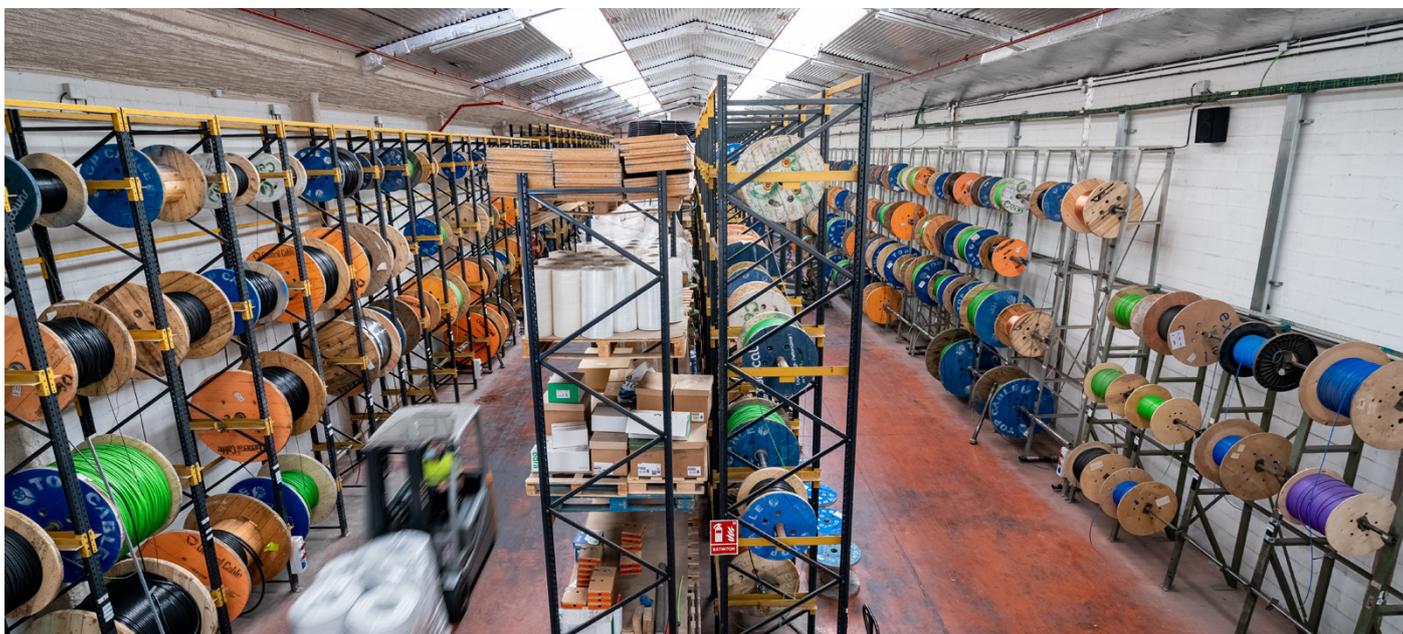

MAINTENANCE AND EXTENDED WARRANTY

Annual maintenance service, where we can take care of the revisions, control and repairs that your equipment needs.

A TEAM OF VALUE

A team of highly qualified engineers can support you in the development of specifications, demonstrations and proofs of concept.

ORIGIN OF SPECIALIZATION

We offer technical solutions to our clients in areas such as:

- Industrial automation
- Automotive
- Process management
- Integral installations
- Residential installation
- Tertiary installations

Highly qualified technical sales team, with great experience to offer you their help in any type of project with customised solutions.

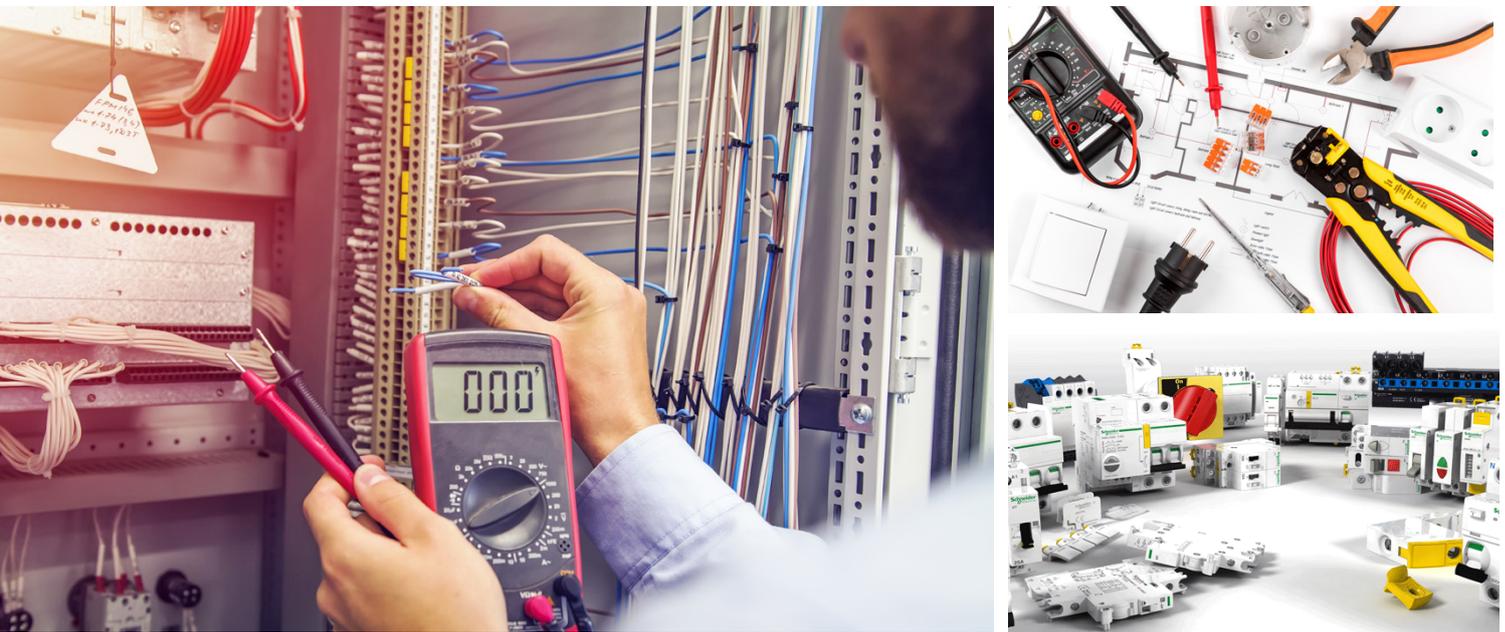

As a Sensor Partner Telemecanique and Alliance Registered Schneider we guarantee solutions of all kinds that adapt and adapt to the needs of our customers to offer the best response to a demanding market that is actively growing and evolving day by day.
