BILLUND KOMMUNE

The Culture and Leisure Council

The Culture and Leisure Council works to ensure that all Billund Municipality residents have adequate frameworks and conditions to engage in an active and diverse cultural and recreational life.

The Culture and Leisure Council is a democratically elected body that represents all cultural and leisure stakeholders in Billund Municipality. The council is elected for a four-year term, which corresponds to the municipal council election period. The Culture and Leisure Council, a §35 subsection 2 committee, also serves as a public information committee. The council deals with cultural and recreational matters,

proposes political and administrative initiatives, and handles applications for the development pool and the pool for courses and education.

Every year, the Culture and Leisure Council designates key areas of action to focus their efforts. The council meets four times a year, supplemented by two half-yearly workshops where selected action areas for the year are discussed. This provides a solid foundation for continuous improvement and growth in Billund Municipality's cultural and leisure activities.

"In Billund Municipality, we value our close collaboration with the Culture and Leisure Council. The Culture and Leisure Council is an important partner for both the administration and the political committee, working together through ongoing dialogue, meetings, and discussions. The council also serves as an important spokesperson for Billund Municipality's numerous cultural and recreational stakeholders. The council plays an important role in the area's development and promotes stronger cohesion by contributing insights and perspectives in the field of culture and leisure."

Billund Municipality has a vibrant, versatile, and diverse cultural and leisure scene. It is critical that we, both in administration and at the Culture and Leisure Council, stay

up-to-date on what local associations, stakeholders, and enthusiasts are passionate about and working with. As a result, the Culture and Leisure Council plays an important role in the local cultural and recreational life"

about the
Culture and
Leisure Council

"The Culture and Leisure Council in Billund Municipality is responsible for creating the best possible development conditions throughout the municipality's cultural and leisure areas. Council members are elected to represent and promote citizens' interests in a variety of areas and across all age groups. We are very proud to have been assigned this responsibility, and we approach it with humility at all times.

There is a lot at stake when pool funds are distributed throughout the year to the applications that we are always delighted to see. You out there at the front are full of initiative, commitment, joy, and innovative thinking, and we appreciate every opportunity to assist you with your work. You deserve it to the fullest extent. You are the ones who carry the torch and make things happen.

There is also a lot at stake when we choose to send consultation responses in relation to political decisions or address issues that are important to associations, clubs, organised groups, and the self-organised, and therefore as to us. It is critical that we be visible and active in bringing your wishes and needs, as citizens, initiators, and key persons, to the table in a positive manner within our areas of responsibility. We will make an effort to meet with you, our grassroots, as frequently as possible in order to gain knowledge and renewed inspiration for the work we have been assigned to do - for you. You make us smarter every time.

The Culture and Leisure Council has good and strong mutual cooperation across a wide range of areas and interests. This is a significant strength, and our commitment is bolstered not least by the support we receive from our grassroots. Thank you for that, and for your trust in us!"

Best wishes
