

## PORT OF SKAGEN

### WELCOME TO PORT OF SKAGEN

Located at Denmark's northernmost point, Port of Skagen stands as one of Europe's largest ports for pelagic fishing, playing a crucial role in the global seafood supply chain. With a prime location at the gateway between the North Sea and the Baltic Sea, the port is a vital hub for fishing, maritime services, and logistics.

Each year, Skagen welcomes over 6,000 landings from fishing vessels, reinforcing its position as a market leader in the pelagic industry. The port continues to expand and evolve, with ongoing investments in infrastructure, sustainability, and innovation, ensuring world-class facilities for fishing, shipping, and industry partners.

With state-of-the-art processing facilities, advanced logistics solutions, and a strong commitment to sustainable growth, Port of Skagen is the preferred choice for industry leaders looking to connect, collaborate, and thrive in an ever-evolving maritime landscape.

**Port of Skagen – Shaping the Future of the Maritime and Fishing Industry**

See our presentation video here:

## COMMERCIAL FISHING

Port of Skagen is Denmark's leading fishing hub, handling the largest volume and value of fish in the country. With deep-water access (up to 13 meters) and world-class facilities, the port is a key center for pelagic and demersal fishing.

### **Pelagic Fishing – A Full-Service Hub**

As Denmark's largest port for pelagic fishing, Skagen offers a complete value chain from landing to export. The port's deep-water quays accommodate the largest trawlers, and on-site services include trawl repair, vessel maintenance, and advanced logistics. Recent investments in shore power infrastructure allow vessels to reduce emissions by shutting down their generators while in port.

### **Demersal Fishing – Optimized for Growth**

To meet rising demand, Skagen has expanded its fish terminal, increasing water depth from 5 to 7 meters for improved handling. The EU-approved border control point streamlines international trade, while modern facilities ensure efficient processing, sorting, and distribution.

### **A Future-Ready Fishing Port**

With 6.6 km of quays, 1.62 million m<sup>2</sup> of port area, and dedicated trawl facilities, Port of Skagen is built for the future. Its state-of-the-art infrastructure, full-service ecosystem, and focus on sustainability makes it the preferred choice for the fishing industry.

### **Port of Skagen – The Leading Hub for Sustainable and Efficient Fishing**

## MARITIME SERVICES

Port of Skagen is more than just a fishing hub—it is a full-service maritime center offering a complete range of solutions for vessels of all sizes. With state-of-the-art infrastructure and specialized service providers, the port ensures efficient, reliable, and high-quality support for the maritime industry.

### **Full-Service Ship Maintenance and Repairs**

Skagen is home to a strong network of maritime service providers, offering everything from dry docking, hull maintenance, and engine repairs to trawl and fishing gear servicing. With deep-water access (up to 13 meters) and extensive quay facilities, even the largest vessels can be accommodated.

### **Bunkering, Logistics, and Provisions**

The port provides fuel and bunkering services, as well as efficient supply chain solutions, ensuring vessels are ready for their next journey. A strong local industry supports provisioning, spare parts, and technical services, keeping operations smooth and cost-effective.

### **Sustainability and Innovation**

As part of its commitment to sustainable maritime operations, Port of Skagen has invested in shore power, reducing emissions by allowing vessels to shut down onboard generators while docked.

With its strategic location, full-service infrastructure, and commitment to innovation, Port of Skagen is the ideal partner for the global maritime industry.

**Port of Skagen – Your Trusted Partner in Maritime Excellence.**

# L&N Supply Ships

## Your Local Partner for Fast, Flexible, and Reliable Maritime Services

Welcome to L&N Supply Ships, your trusted professional partner for sea freight, sea transport, and clearance services in the coastal regions of Kattegat and Skagerrak. With a firm commitment to personalized service and local expertise, we are here to meet all your maritime needs efficiently and effectively.

What sets us apart at L&N Supply Ships is our unwavering dedication to being your local and personal alternative. We take pride in going the extra mile to provide flexible and tailor-made solutions that perfectly align with your specific requirements. With us, you can expect prompt deliveries without unnecessary waiting time or detours, guaranteeing your operations run seamlessly.

Our company was born out of the desire to offer a fast, flexible, and personalized service to our esteemed customers. We firmly believe that a stable and secure delivery system empowers our clients to work even more efficiently, enabling them to focus on their core operations with complete peace of mind.

# Your ambitions, our expertise. Together, we make ports for the future.

The expansion of the Port of Skagen is the result of big visions, hard work, and expert experience within hydraulic engineering, coastal engineering, port planning, and commercial construction.

We offer client and project advice in all phases of port projects. We have extensive experience from expanding commercial ports in Scandinavia, Asia and North America. Our services are provided from early involvement, regulatory processing, design and execution.

Together with customers, partners and colleagues, we shape a future where people and societies grow and flourish. We do that by co-creating sustainable and beautiful solutions that improve the quality of life for people today and many generations ahead.

Primarily located in Scandinavia, the UK, North America and India, we are currently 8,000 people, who offer our expertise in engineering, architecture, energy and environment.

**COWI**

## A UNIQUE CRUISE DESTINATION

Port of Skagen is a premier cruise destination offering world-class facilities, rich cultural heritage, and stunning natural beauty. The port welcomes thousands of cruise passengers each year, providing seamless access to one of Denmark's most charming and historically significant towns.

### **A Port Designed for Cruise Excellence**

Port of Skagen offers modern cruise infrastructure, including deep-water berths, efficient terminal facilities, and easy passenger access to the town center. The port's capacity allows it to accommodate large cruise vessels, ensuring smooth and comfortable operations for passengers and crew.

### **Discover the Charm of Skagen**

Skagen is a historic maritime town known for its golden beaches, picturesque yellow houses, and the unique natural light that has long inspired artists. Visitors can experience the breathtaking meeting of two seas at Grenen, explore the masterpieces of the famous Skagen Painters at Skagens Museum, or uncover the fascinating history of the sand-covered church, a mysterious landmark slowly reclaimed by nature. The vibrant marina, lined with seafood restaurants and cozy cafés, invites guests to indulge in fresh local delicacies while soaking in the town's authentic maritime atmosphere.

With its rich history, top-tier cruise facilities, and unforgettable experiences, Skagen is an essential stop for cruise itineraries in Northern Europe.

## **SKAGEN ROAD – A SAFE ANCHORAGE AT THE GATEWAY TO SCANDINAVIA**

The Port of Skagen is a geographical hub at the top of Denmark for ship traffic between the Baltic and North Sea.

The Port of Skagen is incredibly well placed in terms of the ever increasing ship traffic between the Atlantic Ocean and the Baltic Region. We have a strong focus on international shipping which consists of more than 60,000 ships and vessels that pass north of Denmark through the Skagerrak each year. This makes the waters off the Port of Skagen one of the busiest in the world - an unequivocal blue motorway.

It offers great opportunities in relation to the maritime service business area, where the Port of Skagen serves as a complete maritime service centre that can quickly and smoothly meet the needs of the passing ship traffic, either at the quay or at anchor.

**Port of Skagen – Providing Safe and Strategic Anchorage Solutions.**

**FOR MANY YEARS WE HAVE SUCCESSFULLY ASSISTED SHIPS IN PORT OF SKAGEN AND WHILE PASSING THROUGH THE DANISH WATERS. WE HAVE SPECIALIZED SERVICE CRAFTS PROVIDING ALMOST ANY KIND OF SERVICE.**

Your local agent situated in Port Skagen, Denmark, from where we offer our agency services for ships coming into port and ships staying at anchorage or passing through Danish Waters.

Located at the main junctions on the sea routes to and from the Baltic Sea, SAGA Shipping offshore department is able to supply most anything to vessels passing through Danish waters, either at SKAW or KALUNDBORG.

Operating a fleet of 4 supply & crew vessels, SAGA Shipping delivers spare parts, stores, provisions and passengers 24/7 – 365

With close to 50 years of experience in the offshore supply service industry, SAGA Shipping has a vast experience in delivering goods and people to vessels both at anchor and while on route.

Due to the variety of vessels in our fleet, we can deliver almost any products to vessels off port limits, whether we are talking stores, spares, provisions, luboil (both packed and in bulk), fresh water or any of the countless other products which we have been entrusted with delivering and landing during the years.

Further to dedicated storage areas for provisions, stores and spares, as well as chemicals SAGA

Shipping also have separate chilled and reefer storage areas where goods are received, segregated and prepared for sea transportation.

Our main services includes, but are not limited to:

- Customs formalities pertaining to goods being delivered to and goods being received from vessels.
- Customs formalities and documents preparation pertaining to goods being discharged and loaded in port.
- Crew change including lodging and transportation as well as immigration formalities.
- Liaison between vendors, vessel owners, vessel managers, transportation companies.

Further to services which we handle inhouse, our vast experience also gives us excellent contacts to:

- Mechanical and Electrical engineers
- Surveyors of any kind
- Class inspectors
- Health Certificate renewal agency
- Luboil suppliers who can deliver either in barrels or bulk
- Diving companies, whether for inspections, cleaning or repairs
- Compass adjusters
- Several ships chandlers able to supply almost any kind of product

## COMMERCIAL LAND LEASE OPPORTUNITIES

Port of Skagen offers extensive leasing opportunities for businesses looking to establish or expand operations within Denmark's leading maritime hub. With large, flexible industrial areas available for lease, companies can benefit from strategic access to key transport routes and the dynamic maritime ecosystem.

### **Room for Growth and Expansion**

The Port of Skagen provides businesses with ample space for expansion, thanks to its vast industrial zones and access to state-of-the-art infrastructure. Companies can scale operations efficiently, benefiting from prime waterfront locations and excellent connectivity to international shipping routes.

### **Skagen Dry Port – A New Business Area**

As part of its ongoing development, Port of Skagen introduces Skagen Dry Port, a modern business area designed to support maritime and industrial businesses. The area offers specialized facilities for vessel maintenance and other maritime services, making it an ideal location for companies in the maritime and heavy industries.

### **The Benefits of Location**

Located at the gateway to Scandinavia, Port of Skagen offers businesses a unique advantage: a central position with easy access to European and international markets, combined with the ability to tap into the growing maritime and fishing sectors. The port's commitment to sustainability, infrastructure development, and logistics makes it an attractive destination for companies seeking to invest in future growth.

**Port of Skagen – Your Ideal Partner for Industrial Growth and Expansion.**

## **SUSTAINABILITY INITIATIVES – BUILDING A GREENER FUTURE AT PORT OF SKAGEN**

At Port of Skagen, sustainability is at the heart of our operations. As a key player in the maritime and fishing industries, we are committed to reducing environmental impact, promoting responsible resource management, and ensuring that both the port and the surrounding community thrive in harmony with nature.

### **Sustainable Infrastructure**

Port of Skagen has invested heavily in sustainable infrastructure, with a focus on reducing energy consumption and promoting eco-friendly solutions. One of our most significant initiatives is the installation of shore power, which allows vessels to plug into the grid and shut down their onboard generators while docked. This reduces both emissions and noise pollution, making Port of Skagen a leader in environmentally responsible port management.

### **The City and the Port – Working Together for a Sustainable Future**

The port's commitment to sustainability extends beyond its maritime operations. Skagen as a town and the port are actively collaborating to promote clean energy, and reduce environmental footprints. Initiatives such as sustainable transportation, waste management, and water conservation ensure that the port remains an integral part of the community's long-term environmental goals.

### **Sustainable Development and Responsible Fishing**

Skagen is also dedicated to reducing waste, and supporting eco-friendly technologies, the port ensures that fishing operations remain environmentally responsible. Skagen's commitment to sustainability in the fishing industry helps protect marine ecosystems while supporting the local economy.

Port of Skagen continues to explore innovative solutions to reduce environmental impact, and we are proud to be at the forefront of green development in the maritime sector.

**Port of Skagen – Leading the Way in Sustainable Maritime Operations.**

## SUSTAINABLE DEVELOPMENT GOALS

Port of Skagen is committed to sustainable solutions and innovation to ensure a greener future. Our initiatives align with several UN Sustainable Development Goals:

**Affordable and Clean Energy (SDG 7):** We invest in green energy solutions, including shore power for vessels, energy-efficient port facilities, and the exploration of renewable energy sources.

**Industry, Innovation, and Infrastructure (SDG 9):** We continuously modernize our port infrastructure, integrating digital solutions and smart technologies to improve efficiency and sustainability.

**Sustainable Cities and Communities (SDG 11):** We work closely with local stakeholders to minimize environmental impact and support the development of a more sustainable and livable community.

**Responsible Consumption and Production (SDG 12):** We promote sustainable fishing practices, waste management systems, and circular economy initiatives to reduce resource consumption and pollution.

**Climate Action (SDG 13):** We actively reduce our carbon footprint by implementing green logistics, supporting alternative fuels, and investing in climate-resilient infrastructure.

**Life Below Water (SDG 14):** We protect marine ecosystems through responsible port operations, waste reduction initiatives, and collaboration with the fishing industry to ensure sustainable seafood production.

**Partnerships for the Goals (SDG 17):** We engage in strong partnerships with industry leaders, research institutions, and authorities to drive innovation and implement sustainable solutions.

At Port of Skagen, we are dedicated to balancing economic growth with environmental responsibility, ensuring a sustainable future for the maritime industry.

**Port of Skagen – Committed to the United Nations Sustainable Development Goals.**
