

FROST

ELECTRIC AND COOLING SUPPLIER

Authorized cooling supplier since 2001

WELCOME TO FROST

Keeping cool since 2001

Frost was established in 2001 with the main objective being to supply quality products to the refrigeration and air conditioning industry at consistently competitive prices. We are proud to have achieved this along with gaining a reputation for excellent customer service.

We have a wide range of competent employees within refrigeration, engineers and electricians with extensive experience with work in the Faroe Islands, in Denmark, in Iceland and in Norway.

For us, no task is too large or too small. We collaborate with large foreign suppliers within the cooling area, and we can handle delivery of complete solutions within refrigeration, freezing and climate systems as well as service and repair.

Our purpose is to solve the tasks we receive, both fast and quality conscious for our customers - always at a competitive price.

THE OPTIM^{ICE} COMPANY

SEAFARMING & FISHERIES

Seafarming and fisheries require fast, efficient cooling systems to ensure that the fish products remain fresh, healthy and appetizing all the way to the consumer.

FROST OFFERS

- Icemachines
- RSW-systems for refrigeration

FISHING INDUSTRY

fast and efficient freezing

Food packaging areas for fresh fish and the production processes themselves are sensitive areas where temperature-controlled environments are essential, especially in work areas where food are exposed to the surrounding environment.

FROST OFFERS

- **Commercial ice making machines**
- **Solutions for cold rooms**
- **Commercial refrigerators and freezers**

FISHING VESSELS cool at sea

Regardless which type of fishing vessel, Frost has years of experience in analyzing our customer needs in the freezing and refrigeration area, and we can deliver projects that meet customers' requirements for performance and reliability.

FROST OFFERS

- **Commercial ice making machines**
- **Solutions for cold rooms**
- **Commercial refrigerators and freezers**
- **RSW-systems for refrigeration**

FOOD SERVICE

keep cool, keep fresh

Food service refrigeration equipment ensures food quality from source to consumer. Within the food service industry, there is a wide variety of refrigeration and freezing applications, all of which include the common goal of preserving materials throughout the food chain from early stage processing through final product storage.

FROST OFFERS

- **Cold rooms**
- **Commercial ice machines**
- **Commercial refrigerators and freezers**
- **Cooling systems for wine and beverage**

REFRIGERATED CONTAINERS

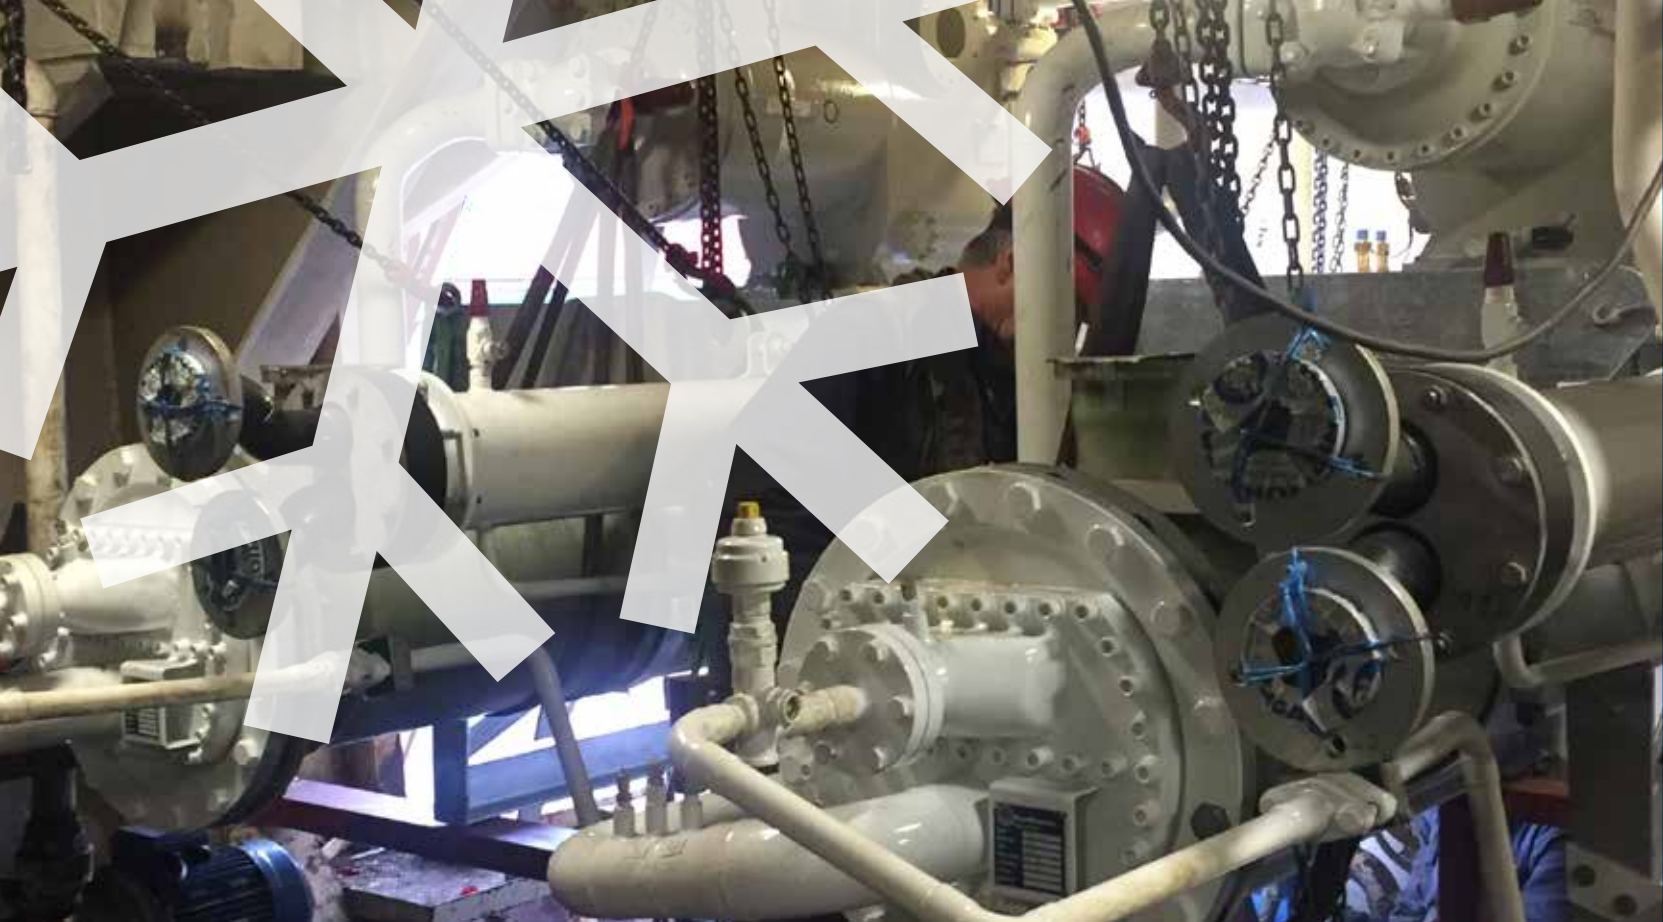

monitor and manage the temperature

We have a wide experience within refrigeration applications for reefers that are designed to help monitor and manage perishable products such as foods, pharmaceuticals and chemicals.

FROST OFFERS

- Valves
- Pressure regulators
- Compressors
- Service & repair

SERVICES monitor & repair

Frost offers maintenance and repair within refrigeration on large scale industrial installations. We have skilled engineers that are ready to go anywhere, where the customer requires, with a moments notice.

Our services can be customized to individual needs of service, monitoring and repair.

WATCH AGREEMENT

We offer all our customers who have a service agreement, a 24-hour watch arrangement – year round.

It is always possible to get hold of one of our installers and several repairs are done immediately.

When calling on the phone outside of regular working hours, which is between 16.00 and 08.00 and an employee needs to make a service on a system, there will be invoiced for a minimum of 4 hours.

SERVICE AGREEMENT

With a service agreement there is a very clear advantage. You can save money and avoid problems with eg. an installation if you have a service agreement with P/F Frost.

With a service agreement we make sure your system lives up to the legal requirements, in addition to having regular service with the facility, which helps to make it run as smooth as possible.

INSPECTION

According to the law on refrigeration, systems must be inspected once a year by an approved refrigeration supplier.

We can perform this inspection for you.

Call and hear more about our deliveries and services or send an inquiry by mail.

FROST OFFERS

We have a large range of products at competitive prices.

Here are a few selected items:

- Alarm systems for all gasses
– we represent Geopal alarm systems
- Freon – a wide selection
