

Grønjordskollegiet

A good place to live

Your home, your free space

You are young, studying and have just moved away from home. You have decided that Grønjordskollegiet should be your new home, your base, your free space, together with 1,000 other young people who like you are pursuing a degree.

Large student dormitory with room for many

Grønjordskollegiet consists of five blocks with a total of 840 single rooms and 80 double rooms. In the common house from 2006, we have gathered the wide range of activities the dormitory has to offer. A number of our residents are foreign students.

Close to the city's pulse

Grønjordskollegiet is well placed in relation to nature and the city's pulse. The blocks are close to Amager Fælled and within a short walking distance to DR Byen's metro station, from which you can go to central Copenhagen.

Leisure time

The residents spend most of their time studying, but there are of course times that call for more leisurely activities. We offer a wealth of opportunities to engage oneself outside schedule and syllabus. Among other things, we have a gym, print shop, "Hatten" (bar and disco), reading groups, party room rental, family/guest room rental, badminton, basketball, football, table tennis, beach volleyball, swimming, music practice rooms and much more.

Green profile

Grønjordskollegiet would like to profile itself as a green dormitory, where we are aware of the dormitory's energy consumption. In 2015, we got solar cells on the roofs of the blocks. This meant an annual saving of approx. DKK 500,000. The year before we changed all the radiators of the dormitory, and thermostats were fitted. Automatic heat control was also installed. We are continuously working on developing our green profile and are planning a major renovation where all windows will be replaced and climate screens will be set up on all blocks.

The GoZee app makes the brochure come alive

GoZee: Get started in 30 seconds

1. Go to App Store or Google Play, enter "GoZee" in the search field and download the app to your smartphone or tablet.
2. Open the app and use it on pages with the GoZee icon.

Smoke-free dormitory

Grønjordskollegiet became a smoke-free dormitory August 1, 2018, and therefore no smoking is allowed in the rooms or in the common areas. Smoking is only allowed outdoors.

Waste – a shared responsibility

All residents have a responsibility to sort waste. At block 4 and behind block 2 there are bulk-waste containers and smaller containers for cardboard and paper, as well as bottle containers. Keep in mind that household waste may not be disposed of in the bulk-waste containers.

There is much else to say about Grønjordskollegiet. These were some of the most important things – the rest you'll find out. And remember, you are always welcome to ask us – we are here for you!

Welcome to Grønjordskollegiet!

Grønjordskollegiet is a self-governing institution consisting of:

The board: Highest authority consisting of six members, two of which are politically appointed, two are from institutions of higher education, and two are members of the residents' council.

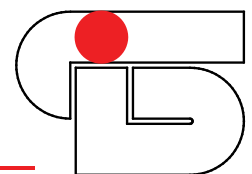

The residents' council: Takes care of residents' interests. It consists of five members that are elected for two years at a time.

The administration: Managed by a principal. In addition, there is also a manager, an accountant, etc.

The residents' association: Manages the dormitory's shared facilities.
